PROFESSIONAL SUMMARY

Final-year Software Engineering student at Lahore College for Women University with hands-on experience in web development, frontend development, and MERN stack technologies. Completed internships in web development and IT infrastructure. Passionate about building scalable web applications, solving real-world problems, and continuously learning modern software development practices. Seeking a junior software engineering role in Lahore's growing IT sector.

TECHNICAL SKILLS

Languages	Python · C++ · JavaScript (ES6+) · HTML5 · CSS3 · SQL
Frontend	React.js · Responsive Web Design · UI/UX · SEO · Web Performance
Backend	Node.js · Express.js · REST API Development · Authentication Systems
Database	MongoDB · MySQL · Relational Databases (DBMS)
Tools	Git · GitHub · VS Code · Google Cloud · Postman · MS Office
Other	MERN Stack · DevOps Basics · QA & Testing · Network Administration

PROJECTS

CyberGuard – AI Threat Intelligence System | [Final Year Project](#)

- AI-powered cybersecurity threat detection and intelligence platform built for software engineering capstone.
- Features threat monitoring, risk analysis, incident management, role-based dashboards, and automated security insights.
- Includes threat prioritization engine and real-time security reporting module.

Portfolio Website | [Frontend Development](#)

- Designed and developed a personal portfolio using HTML5, CSS3, and JavaScript to showcase projects and skills.
- Implemented responsive design, smooth animations, and SEO optimizations for improved discoverability.

MERN Stack Practice Projects | [Full-Stack Development](#)

- Built full-stack web applications including REST APIs, JWT authentication systems, and responsive React interfaces.
- Deployed projects using Git/GitHub workflows; familiar with modern JavaScript development and component architecture.

EXPERIENCE

MERN Stack Developer • [Self-Learning & Personal Projects](#)

2026 – Present

- Learning and building full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Developing REST APIs, authentication systems, and responsive web interfaces for portfolio projects.
- Practicing Git/GitHub version control and modern deployment workflows.

Web Development Intern • [NovaSole Pakistan, Kasur](#)

Jun – Sep 2024

- Developed and maintained frontend and backend components of an e-commerce platform, improving UX and functionality.
- Optimised website performance via image compression and caching — achieving measurable load-time improvements.
- Implemented SEO best practices contributing to increased organic traffic; conducted testing and debugging.

IT Intern • [MITE \(Mubashar's Institute\), Kasur](#)

May – Jun 2024

- Supported network infrastructure installation and maintenance serving 230+ students and staff.
- Maintained campus-wide CCTV systems and provided first-line technical troubleshooting to minimize downtime.

EDUCATION

BS Software Engineering • [Lahore College for Women University](#)

Sep 2022 – Expected 2026

- Relevant coursework: Data Structures, Algorithms, Database Systems, Web Engineering, Software Design, Machine Learning.

CERTIFICATIONS

- Google IT Support Professional Certificate
- Web Development – Relevant online coursework (MERN Stack, JavaScript)

ADDITIONAL SKILLS

- Languages: English (C1 – Proficient) • Urdu (Native)
- Strong problem-solving, communication & teamwork abilities
- Active participant in university tech events & programming competitions
